The BATS 1000 Index offers a listings-neutral, broad snapshot of the US equities marketplace by tracking the performance of 1,000 securities classified in 10 important industry sectors. The BATS 1000 Index was launched on July 1, 2009, with a base value of 10,000. The 10 index sectors are adjusted to an equal weighting based on the current value of the index during an annual reconstitution process, which takes place every June.

The BATS 1000 Index data is available via the Consolidated Tape System (CTS), the operating authority for exchange-listed securities information, enabling distribution of the data to the public via the Internet and other electronic media.
