

## BATS Exchange (BZX) to Participate in SIFMA BCP/Reg SHO Testing on Saturday, October 23<sup>rd</sup>, 2010

The BATS Equities Exchange (BZX) will operate from our secondary data center in Nutley, NJ for the SIFMA BCP test. The primary data center in Weehawken, NJ will be unavailable for the duration of this test.

BATS systems will start up as normal on the test date and be available for connection at approximately 8:30 am ET. All member sessions will be terminated at 1pm ET.

All symbols will be available for order entry and NMS rules will not apply during the test. Additionally, changes to support Regulation SHO Amendments that are effective on November 10, 2010 will be enabled to allow members to functionally test those changes during this same test window.

Members who wish to participate do not need to register with BATS. For each member port in the primary data center, there exists an analogous port in the secondary data center that is ready for connection assuming the member has connectivity established to the secondary site.

The BATS Trade Desk ([tradedesk@batstrading.com](mailto:tradedesk@batstrading.com) 913.815.7001) and NOC ([noc@batstrading.com](mailto:noc@batstrading.com) 913.815.7005) will be available for the duration of this test.

If you require additional information or assistance, please contact BATS Trade Desk.
